- Collaborate with a cross-functional evaluation team through regular calibration meetings to maintain consistency and alignment across assessments

Handshake Dec 2025 - May 2026
AI Trainer Remote

- Evaluated AI-generated visual outputs across multiple quality dimensions, identifying failure patterns and contributing structured feedback to improve system performance
- Developed and tested domain-specific prompts to assess model accuracy, consistency, and alignment with user intent
- Analyzed output trends to surface system-level strengths and gaps, supporting data-informed improvements in AI-assisted design workflows

BRIDGEGOOD Jun 2025 - Aug 2025
UX Design Apprentice Oakland, CA

- Designed end-to-end user flows and high-fidelity prototypes using Figma and user research, streamlining workflows for 1,500+ caseworkers and enabling 500+ partnerships
- Improved information architecture by applying usability testing and accessibility best practices, strengthening content hierarchies based on mentor feedback from Google, Adobe, Amazon, and Cisco
- Presented design strategy to stakeholders through comprehensive pitch deck, demonstrating clear user impact and business value

TAP Series, LLC Oct 2024 - Jun 2025
Production Assistant Westlake Village, CA

- Conducted UX audits and identified usability friction points across an e-learning platform, collaborating with developers to implement interface improvements that reduced customer support volume
- Designed clearer post-action user flows and system messaging to improve error recovery and reduce confusion in high-friction moments
- Optimized marketing production workflows, scaling email delivery capacity from 10,000 to 50,000+ weekly sends through process improvements and automation
- Produced and redesigned 20+ course videos with a focus on accessibility and user engagement, improving comprehension for diverse user groups
- Coordinated cross-functional efforts using Salesforce and Zoho CRM, supporting consistent system communication and user experience across teams

City of Davis Mar 2024 - Jun 2024
Design Consultant Davis, CA

- Conducted user research through community interviews and field studies to inform downtown corridor redesign for 66,000+ Davis residents, identifying key usability and engagement opportunities
- Synthesized qualitative data with four-member team to develop research-backed prototypes addressing community needs
- Presented data-driven recommendations to the City Council that informed implementation, improving pedestrian flow and community use throughout the day

VNA Health 2018 - 2018
Health Technology & Program Support Volunteer Santa Barbara

- Supported healthcare technology systems by organizing and digitizing therapy program data, improving accessibility and retrieval for clinical staff while maintaining HIPAA compliance
- Collaborated with healthcare professionals to streamline information access within patient care workflows, reducing friction in day-to-day operations
- Ensured accurate and secure handling of sensitive patient-related data in alignment with healthcare privacy standards
